

BIODIVERSITY COMMITMENT STATEMENT

While Gabungan AQRs Berhad does not operate within, or adjacent to sites deemed rich in biodiversity, the Group is committed to undertake all necessary due diligence. This includes undertaking environmental impact assessments (“EIA”), as stipulated by the authorities.

Gabungan AQRs Berhad is also committed to ensuring that impacts caused by work on its sites does not affect water, soil and air quality which can directly or indirectly affect biodiversity. If and where necessary, Gabungan shall undertake necessary due diligence, including working with external experts to assess the level of biodiversity on any operational sites.

Efforts are also being made to introduce local vegetation at its property development projects progressively. Gabungan AQRs Berhad’s efforts to preserve biodiversity includes its ongoing efforts to manage energy, water and resource consumption.
